

The Evil of Evolution
10-6-13

I. Introduction

A. The Power of Creation is that it reveals God

1. Today we see what Paul meant when that power is denied Rom 1:20-25
2. Paul battled the mindset of Paganism in his day
 - a. Established by a scholarly wing of thought
 - b. Rejects Christianity as "foolish"
3. Paul very well could be describing the modern evolutionary movement
 - a. The great imaginations
 - b. They claim that only they have knowledge
 - c. They changed the Glory of God in His creation to that of evolutionary descent, instead of man from God, man came from animals
 - d. They worship and serve the god Evolution

(1) With a Faith that sometimes exceeds our own

Atheistic entomologist Geoffrey Taylor: "*Darwin's Origin of Species and Marx's Das Capital...heralded the two great secular faiths of modern times--Evolutionism and Communism.*"

"Evolution is promoted by its practitioners as more than mere science. Evolution is promulgated as an ideology, a secular religion—a full-fledged alternative to Christianity, with meaning and morality . . . Evolution is a religion" Michael Ruse, "How Evolution Became a Religion," National Post, Toronto, May 13, 2000

B. Evolution is the New Paganism

C. Evolution is Evil for four reasons:

1. It was conceived in Atheism
2. It was born in racism
3. It was raised in falsehoods
4. It is sustained by intolerance

II. Body

A. It was a theory designed with a purpose: Atheism

1. To refute God

The Meaning of Evolution, by G.G. Simpson: "Man is the result of a purposeless and materialistic process that did not have him in mind." A more recent statement by the famed evolutionist, Julian Huxley, expresses the same sentiment: "Darwinism removed the whole idea of God as the Creator of organisms from the sphere of rational thought. Darwin pointed out that no supernatural designer was needed; since natural selection could account for any known form of life, there was no room for a supernatural agency in its evolution."

Ericson, Edward L., "Reclaiming the Higher Ground," The Humanist "The core of the humanistic philosophy is naturalism — the proposition that the natural world proceeds according to its own internal dynamics, without divine or supernatural control or guidance, and that we human beings are creations of that process. It is instructive to recall that the philosophers of the early humanistic movement debated as to which term more adequately described their position: humanism or naturalism. The two concepts are complementary and inseparable

B. To promote racism

"At some future period, not very distant as measured by centuries, the civilised races of man will almost certainly exterminate and replace throughout the world the savage races. At the same time the anthropomorphous apes, as Professor Schaaffhausen has remarked, will no doubt be exterminated. The break will then be rendered wider, for it will intervene between man in a more civilised state, as we may

hope, than the Caucasian, and some ape as low as a baboon, instead of as at present between the negro or Australian and the gorilla." Darwin, Charles. 1871. The Descent of Man, and selection in relation to sex. London: John Murray. Volume. 1. 1st edition. p 201

1. The Bible makes clear that all men are from one place Acts 17:26
2. Originally, evolution was intended to promote the "Master race"

C. It was grown by deceit

1. The Scopes trial in Tennessee in 1925
2. If you saw the movie Inherit The Wind, you understand the story of evolution today
 - a. No, not as the movie pronounced it, but the lie that is passed on as truth
 - b. The movie is a lie as the idea of "evolutionary science" is a lie; it is evil hidden as innocent truth

3. The lies of the movie -

- a. It was not an innocent, victimized teacher

We are looking for a Tennessee teacher who is willing to accept our services in testing this law in the courts," the New York based American Civil Liberties Union announced soon after the anti-evolution statute passed. "Our lawyers think a friendly test can be arranged without costing a teacher his or her job. Distinguished counsel have volunteered their services. All we need now is a willing client." This announcement appeared in a Chattanooga paper on May 4th, called The Daily Times.

- b. It lied in portraying Bryan as a religious bigot (he supported evolution), and Darrow as a hero (He was the first slime-ball attorney, remember Leopold trial?)

4. Since that time, we have been plagued by an "academia" removed from reality

D. It exists today by refusing to allow any other idea (intolerance)

"Scientists should refuse formal debates because they do more harm than good, but scientists still need to counter the creationist message." Eugenie Scot, New Scientist

All real scientists accept evolution

How do we know they are real scientists?

They accept evolution (summary, BH)

Defeating creationism in the courtroom, but not in the classroom," Science, 28 January 2011

1. Ultimately, the result of evolutionary doctrine has been that it is the only religion permitted in our education system

Evolution is an informative and enlightening lens under which we can scrutinize the natural world, including human history. Denying or ignoring this theory hobbles us intellectually to the point that it becomes virtually impossible to understand nature." (Science Matters Syndicated Newspaper Column, February 2000).

2. Once it is determined that this is the only means of understanding, teaching anything less could become child abuse, neglect, etc
